

Patient Referral Management Accelerator

Pre-built integration with 75+ EHRs

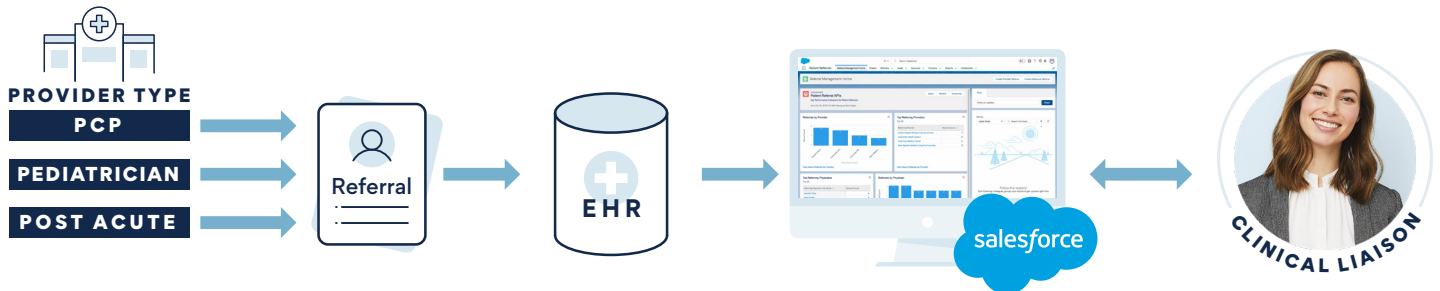

SOLUTION OVERVIEW

Capture key referral information in one easy-to-use platform. Once created, use the power of Salesforce® to automate key business processes and leverage actionable analytics to ensure your referral network is healthy, identify growth opportunities and eliminate provider leakage.

- ✓ Gain a complete view of patient referrals, practices, specific physicians and influencers
- ✓ Track key patient insurance information relative to a referral, including prior authorization numbers
- ✓ Put referral data at the clinical liaisons' fingertips
Track ROI for liaison / physician activity
- ✓ Produce actionable analytics including, but not limited to: Top referring providers, referral trends, and payer mix

REFERRAL PROCESS
